

BIZZOTTO

gioielli

THE EXTRAORDINARY OF A JEWEL IS IN ITS HISTORY.

The origin of Bizzotto Gioielli was a 50-year-old dream. Cesare Bizzotto, a young goldsmith, really wanted to create a brand of high-end jewellery, a brand which would be strongly tied to his family name. His ideas, his heart and his hands moulded the first, unforgettable "collection". In time, Cesare's craftsmanship skills and his experience as a goldsmith grew together becoming the creative force behind his other historical collections. It was in that precise moment that

the dream took on the name Bizzotto Gioielli: a brand, but even more so, an artistic place where the family history and that of these "unique pieces" blend together guided by harmony, unity, and beauty in search of the extraordinary. Jewellery has no time barriers, it is captivated by the movement that reverses fluidity as a creative expression of the material and its light. It loves inspiring life, moving as we move, yesterday and always. Its extraordinary is in our life.

♔, THE ABSOLUTE SIGNATURE.

The experience and history of Bizzotto Gioielli can be told in its signature of absolute purity: a crowned “B”, finely engraved in every piece of jewellery in memory of the founder’s dream, the beginning of it all. “B” is the initial that shows the artistic journey of a family, of a place where the knowledge and research of a brand which gives an antique art a modern twist are symbolically entwined and remembered.

Cesare’s children, Martina and Mauro, and his son-in-law Alberto, joined the company twenty years ago and shared Cesare’s vision and the values of the brand which he wanted to represent with that “B”. Their new and avantgarde look at the product and brand contributed to the international identity of Bizzotto Gioielli, synonymous world-wide with a beauty which comes from its past and goldsmith roots.

FIRMAMENTO

FIRMAMENTO

Firmamento was created thanks to the observation of the sky. Its absolute perfection and its elusiveness are at the heart of this concept.

18kt gold, satinised, multi-string chains are studded with the pureness of an array of diamonds. The mystical dream comes to life when its softness touches the wrist and gives in to the desire for freedom.

FIRMAMENTO

DROPS

DROPS

Substance is inspired by nature. Drops comes to life when 18kt gold, diamonds and precious stones come together to create firm shapes that are mysteriously curvy.

The artisan's precision is there to create that absolute perfection of feeling, rather than shape. No two shapes are alike in nature: this can't be machine-created.

DROPS

NEW YORK

NEW YORK

Forever is that ideal am or pm time of the New York collection. The way it fits shows that perfect equilibrium: you don't give a thought to its material, even though very wearable, but you can't stop seeing its profound beauty.

While gold and diamonds come together through the "multi-string" chain, this antique art is modern and ready-to-wear.

NEW YORK

INFINITO

INFINITO

It is probably the most iconic of the Bizzotto jewels, greatly entwined with history and delicately aimed towards a precise definition of the infinite. The story of this artistic aim is found in this jewel, it cannot be seen but is greatly desired.

Endless, its soul stuns the extraordinary pureness of the diamonds and gold. It comes to life and everything changes: the concept of beauty, the concept of time, the style and the nature of dreams.

INFINITO

BUCKLE

BUCKLE

*It's the poetry of everyday, of your routine, of your life.
Of brunch, of lunch, of the sunset, of the night.
This unforgettable clasp combines gold, diamonds
and the historical "B" signature.*

*The desire is to make the detail an unmistakable whisper.
Wear Buckle whenever you want: timeless is comfortable.*

BUCKLE

CASCATA

CASCATA

Light is the “big bang” of this collection: it expresses its bubbly nature and guides you to the creative design.

The diamonds here, enhanced by the natural and multi-string movement, are the rhythm of our time and make the concept of harmony infinite.

Cascata is an obvious statement of beauty: it is that piece of jewellery that makes the fluidity of the material harmonize with our life.
