

Starter Package for Label Printing

Thermal transfer printer, Software, Labels, Carbon ribbon and Start-up assistance via online support

Get started right now with a slim label printer from the Godex RT200 series! – Perfect where space and budget are tight.

They make it easy to switch from manual marking to label printing via computer: The slim Godex RT series thermal transfer printers have a small footprint (245 x 135 mm) and fit neatly into even the most limited of work-spaces. With limited budgets the starter package gets along very well thanks to its tight calculation: The price for label printer including carbon ribbon, 1 roll of labels and label printing software eXtra4 complete in a set convinces even smart spenders.

- All-in-one-set ready to go
- Favourable package price: save about € 60 compared to single purchase
- Little need of space thanks to slim shape: 24,5 x 17,5 x 13,5 cm
- Imprint resistant to scratches, to UV and ultra-sonic treatment
- slimLINE labels of free choice from the stock range
- Software for label printing eXtra4<winIII> Edition "Basic" perfect for beginners
- Software includes management of items and addresses
- With start-up assistance: 1 hour online support in package price included

499,- €

Set-Price
with 200 dpi
with 300 dpi 569,- €

Due to the general cost situation, we can no more keep our prices constant over a longer period of time, but have to permanently adjust them to the supply market.
Please find up-to-date prices in our online shop.
