THE KINRADEN STORY

"This is it. And nothing we did was ever this important. To create something so beautiful it would be impossible to pass by untouched; something that will touch us deeply, because it reminds us who we really are – that we are one, infinitely related by spirit and blood. We know enough. Enough that our innocence has gone; we must change our ways and walk ahead with a gentler step."

ABOUT US

KINRADEN, based in Copenhagen and rooted in the traditions of Danish design, is dedicated to making a positive impact at every stage of our operations. We believe that every participant in our supply chain should thrive, combating exploitation of both people and nature.

Our jewellery exemplifies this ethos. Each piece of KINRADEN fine jewellery is handcrafted using the finest recycled and purified 18-karat gold and sterling silver, with all production certified by the Responsible Jewellery Council.

CREATIVE DIRECTOR & FOUNDER
SARAH EMILIE MÜLLERTZ

At the heart of KINRADEN is Sarah Emilie Müllertz, whose design philosophy intertwines with our ethos. Inspired by diverse influences ranging from Japanese design tradition to Danish architecture, Sarah's creations blend innovation with tradition. Her jewellery reflects a harmony between form and function, driven by a passion for mindful living and a reverence for nature.

RECYCLED MATERIALS

We craft our pieces from recycled gold, silver, and Mpingo wood — rare materials reclaimed and reimagined. Refined and reborn, they carry the quiet strength of what has already lived, now made timeless.

LASTING DESIGN

We design with eternity in mind — jewellery that defies trends and honours time. Crafted to endure in both form and feeling, each piece is made to be lived in, and lived with.

CERTIFIED PRODUCTION

Our jewellery is handcrafted in a certified atelier where skill meets dignity, and every hand is honoured. Rooted in care and fairness, each piece carries the quiet imprint of a craft — and a workplace — built to uplift.

EXTENDED WEAR

At KINRADEN, durability is designed from within. We craft our pieces with a structural precision. Every piece is carefully considered and tested to carry its beauty over time. Built for daily life, our jewellery is crafted with quiet strength and lasting beauty. Each piece is a promise — designed to endure, and to be worn, again and again.

CARE AND REPAIR

We care for what we wish to keep — which is why every KINRADEN piece comes with simple tools to help it age with grace. And when time leaves its mark, we offer repair and renewal, giving each piece the chance to return to strength — or begin again. Nothing is wasted. Everything continues.

BIODEGRADABLE WASTE

At KINRADEN, every material is part of a thoughtful cycle — designed to return gently to the earth. Our Mpingo wood is treated only with beeswax, allowing even the smallest offcuts to biodegrade naturally. We avoid coatings on our metals to keep them fully recyclable, and our FSC-certified packaging ensures that every part of your experience — from jewellery to box — leaves only a light footprint. Nothing lingers. Everything returns.

RE-USE OR RE-DESIGN

At KINRADEN, nothing is wasted — discontinued pieces are returned to our workshop, where metals are remelted and wood is reimagined. Through careful repair, reuse, and redesign, we honour each material's full life, keeping it in the circle — never in the waste.

NAUTILUS COLLECTION

Inspired by the Fibonacci sequence and the sacred spiral of the nautilus shell, each piece in this collection echoes the organic symmetry found in waves, leaves, seashells, and galaxies. These are forms shaped by a deep, ancient logic — nature's own language of growth and proportion. In "Nautilus", we trace the curve of becoming — how every spiral begins at a single point and unfolds outward, infinitely. These designs speak to the elegance of evolution, the poetics of pattern, and the subtle perfection present in all living things

RIPPLES THEY CREATE IN THE WORLD

IMPRINT COLLECTION

Inspired by the marks we leave on the world and the ripples they create. Drawing from the transformative work of Marina Abramović, the designs reflect on our lasting impressions and our connection to the natural world. Each piece combines wood and metal in seamless harmony, symbolizing the delicate balance between humanity and nature. With minimalist, evocative designs, Imprint serves as a reminder of our responsibility to leave a legacy of respect and harmony with the earth.

EMBODYING AN ELEGANCE THAT IS
BOTH GROUNDED AND TRANSCENDENT

LEVITAS COLLECTION

With its fluid contours and imperfect shapes each piece of jewellery appears as moulded by nature, at the same time playing with the shape of the body and its natural movements. The Levitas Collection, meaning lightness in Latin, is more than a visual accent, it stands as a powerful symbol of the shared stance and dedication to shaping the future through beauty and conscious design. Collection created in collaboration with Skall Studio.

A TRIBUTE TO TRUE
LOVE AND SYMBIOTIC UNITY

ETERNAL ECHOES COLLECTION

This collection draws inspiration from Carlo Scarpa's architectural masterpiece, the Tomba Brion in Altivole. Scarpa's work, a harmonious blend of Venetian art, modernism, and oriental philosophies, is a tribute to true love and symbiotic unity. The complex's intricate design, and the serene Zen garden, embody a journey of self-discovery and eternal love. Each piece in our collection mirrors Scarpa's dedication to detail, and the fusion of cultural influences, celebrating the profound beauty and timeless elegance of his creation.

OUR RESPONSIBILITY

"We see the Earth as a whole – a living organism we are connected to. It's such a fundamental experience that it shapes the way we think, act, and create."

- Sarah Emilie Müllertz

. It calls for change, recognizing that our actions today shape tomorrow. With this understanding, we step mindfully forward, aware of our interconnectedness and shared responsibility to one another and the planet. The environmental cost of even small items like jewellery is significant. Extracting a gram of virgin silver or gold can require spoiling a ton of ore, leaving irreversible scars on landscapes and releasing toxic substances like arsenic, cyanide, and mercury into ecosystems. At KINRADEN, we insist on making jewellery that carries as much importance as the final piece itself.

TO CREATE ENDURING BEAUTY

STILOS COLLECTION

Inspired by the ancient Grecian pillars, these sculptural jewellery pieces are aesthetic variations of a repetitive theme using the three sustainable KINRADEN signature materials of solid 18-karat gold, silver and Mpingo blackwood. The aspiration was to create designs that will remain modern for generations. Originally created in collaboration with MKDT Studio.

I Died for Beauty

I died for Beauty - but was scarce
Adjusted in the Tomb
When One who died for Truth, was lain
In an adjoining Room -

He questioned softly "Why I failed"?
"For Beauty", I replied -
"And I - for Truth - Themselves are One -
We Brethren are", He said -

And so, as Kinsmen, met a Night -
We talked between the Rooms -
Until the Moss had reached our lips -
And covered up - Our names -

WE KINDRED ARE

KINDRED COLLECTION

Inspired by the beautiful love poems and melancholic universe of Emily Dickinson, the Kindred Collection evolves around the signet family ring and the classic diamond full of symbolism – but in the gentle, sustainable version of a cut and polished Mpingo blackwood diamond. These velvet black diamonds create a charming contrast to the fine metals and have become a signature mark for KINRADEN.
